

NovaTech Solutions — Customer Support FAQ

Version 2.1 | Last Updated: March 2026

About NovaTech Solutions

Q: What does NovaTech Solutions do?

A: NovaTech Solutions is a B2B SaaS company that provides AI-powered workflow automation tools for mid-size enterprises. Our flagship product, FlowAI, helps teams automate repetitive tasks, integrate their existing tools, and gain real-time insights through intelligent dashboards.

Q: When was NovaTech founded?

A: NovaTech was founded in 2019 in San Francisco, CA. We currently have over 200 employees across offices in San Francisco, London, and Singapore, and serve more than 1,500 enterprise clients globally.

Q: What industries does NovaTech serve?

A: We primarily serve companies in finance, healthcare, logistics, and e-commerce. Our automation tools are industry-agnostic but we have pre-built templates specifically optimized for these four verticals.

Product & Features

Q: What is FlowAI?

A: FlowAI is our core automation platform. It allows teams to build no-code and low-code workflows that connect over 300 third-party apps including Salesforce, HubSpot, Slack, Google Workspace, and Microsoft 365. FlowAI uses AI to suggest automation opportunities and can self-heal broken workflows.

Q: Does FlowAI support custom API integrations?

A: Yes. FlowAI has a fully documented REST API and webhook support. Developers can build custom integrations using our SDK available in Python, Node.js, and Java. Enterprise clients also get access to our iPaaS layer for deeper system integrations.

Q: Is there a mobile app?

A: Yes. FlowAI is available on iOS and Android. The mobile app supports monitoring active workflows, receiving alerts, approving pending tasks, and viewing dashboard analytics. Full workflow building is available on desktop only.

Q: What AI features does FlowAI include?

A: FlowAI includes an AI Workflow Suggester that analyzes your team's usage patterns and recommends new automations. It also includes an AI Error Resolver that diagnoses and fixes broken workflow steps, a natural language workflow builder (beta), and AI-generated weekly productivity reports.

Pricing & Plans

Q: What pricing plans are available?

A: We offer three plans: Starter at \$49/month (up to 5 users, 1,000 workflow runs/month), Growth at \$199/month (up to 25 users, 10,000 runs/month, priority support), and Enterprise (custom pricing, unlimited users, dedicated success manager, SLA guarantee, on-premise option).

Q: Is there a free trial?

A: Yes. All plans include a 14-day free trial with no credit card required. The trial includes full access to all Growth plan features. After the trial, you can choose any plan or your account will automatically move to a read-only state.

Q: Do you offer discounts for startups or nonprofits?

A: Yes. We offer a 50% discount for eligible nonprofits and a startup program for companies under 2 years old with less than \$1M in funding. Apply through our website at novatech.io/programs.

Q: Can I change my plan at any time?

A: Yes. You can upgrade or downgrade your plan at any time from your account settings. Upgrades take effect immediately. Downgrades take effect at the start of your next billing cycle. There are no cancellation fees.

Support & Onboarding

Q: How do I get started after signing up?

A: After signing up, you will receive a welcome email with a link to our interactive onboarding wizard. The wizard takes approximately 20 minutes and walks you through connecting your first app, building your first workflow, and inviting team members. Growth and Enterprise customers also get a 1-on-1 onboarding call with a Customer Success Manager.

Q: What support channels are available?

A: Starter plan customers have access to email support (response within 24 hours) and our community forum. Growth customers get live chat support (response within 2 hours, Mon-Fri 9am-6pm PST). Enterprise customers get 24/7 phone and chat support with a dedicated account manager.

Q: Where can I find documentation and tutorials?

A: All documentation is available at docs.novatech.io. We also have a YouTube channel with over 150 tutorial videos, a community forum at community.novatech.io, and weekly live webinars every Thursday at 11am PST.

Q: What is your SLA for Enterprise customers?

A: Enterprise customers are guaranteed 99.9% uptime SLA. In the event of downtime exceeding this threshold, customers receive service credits. Our average uptime over the past 12 months has been 99.97%. Full SLA details are available in your Enterprise contract.

Security & Compliance

Q: Is NovaTech SOC 2 compliant?

A: Yes. NovaTech is SOC 2 Type II certified. We are also GDPR compliant, HIPAA compliant (for healthcare customers with a signed BAA), and ISO 27001 certified. Our latest security audit reports are available upon request for Enterprise customers.

Q: Where is my data stored?

A: By default, customer data is stored in AWS US-East. Enterprise customers can choose their preferred region including EU (Frankfurt), Asia-Pacific (Singapore), or US-West (Oregon). On-premise deployment is also available for Enterprise customers with specific data residency requirements.

Q: How does NovaTech handle data encryption?

A: All data is encrypted in transit using TLS 1.3 and at rest using AES-256 encryption. API keys and credentials stored in FlowAI are encrypted using envelope encryption with keys managed through AWS KMS. We perform quarterly penetration testing with third-party security firms.

Cancellation & Refunds

Q: How do I cancel my subscription?

A: You can cancel your subscription at any time from Account Settings > Billing > Cancel Subscription. After cancellation, you will retain access until the end of your current billing period. Your data will be stored for 90 days after cancellation, during which you can export it.

Q: Do you offer refunds?

A: We offer a full refund within 7 days of your initial purchase if you are not satisfied. After 7 days, we do not offer refunds for the current billing period. Annual plan customers who cancel within 30 days of renewal receive a prorated refund for unused months.
